

Pipe Shed

Herrick Archives Number H 332

A. IDENTIFICATION & LOCATION

1. Name

1.1 Building was never officially named by Board of Trustees.

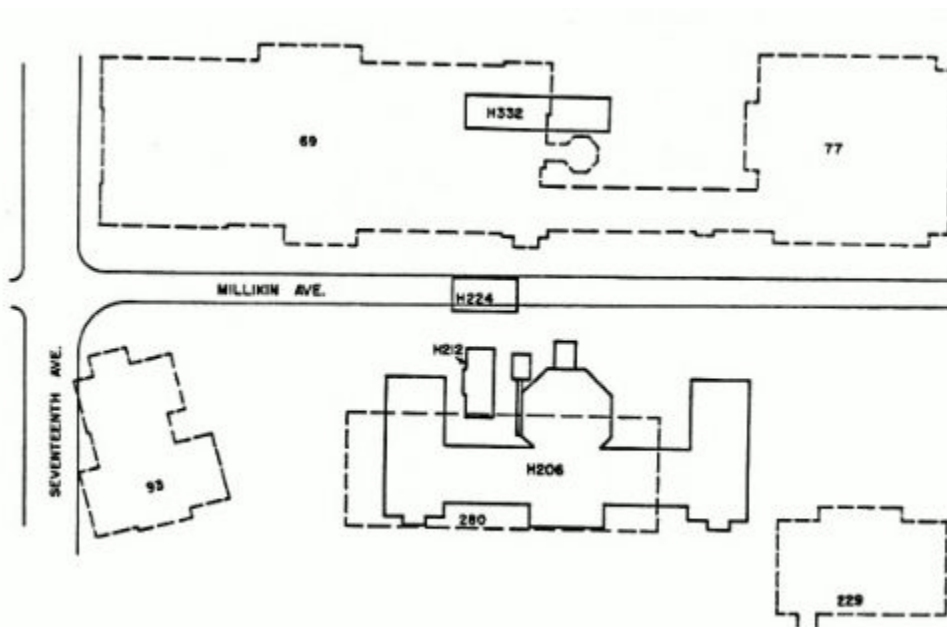

1.2 Alternate names noted:

None

See Addendum No. 1

2. Location

2.1 Located at 304 West Seventeenth Avenue (arbitrarily assigned for indexing purposes). See sketch below.

For identification of other buildings shown, see Appendix A.

3. General Description

3.1 Type of construction:

No record found. Not brick.

3.2 No. of stories:

One

3.3 Increments of construction:

No records. Probably none.

3.4 Size of building:

No record found. Outline on plot plan for second addition to McCracken Power Plant (069) indicates a building approximately 23' x 90', which would give an area of 2070 sq.ft. gross.

B. PLANNING & CONSTRUCTION

1. No records of construction have been found. The building shows as a completed structure in Photograph X 7684, taken in the spring of 1922, when the first addition to the McCracken Power Plant (069) was under construction. This would indicate that H 332 was built not later than 1921.
2. Photographs X 1001 and X 1062, which were taken between the summer of 1918 and the summer of 1920, do not show H 332.
3. Therefore, it appears that H 332 was built between 1918 and 1921.
4. The building was demolished by the University to clear the site for construction of the second addition to McCracken (069), contracts for which were awarded in February 1928 (A).

See Addendum No. 1

ADDENDUM NO. 1

Cabinet on February 6, 1928 ordered the "storage shed" north of the Power House (069) moved to the south side of the drive to the Stadium (West Eighteenth Avenue) just east of the railroad. This was to clear the site for the second addition to the McCracken Power Plant (069), bids for which were taken on February 9, 1928.

On August 7, 1928 Cabinet authorized the Athletic Department to construct a storage shed (H 333) north of the Women's Field House (029) and adjacent to the tennis courts, using materials from the old storage shed north of the Power House (069).

In the interim, i.e. between February 6, 1928 and August 7, 1928, Cabinet considered moving this old storage shed, or tool shed, across the river for use as a small animal building. See Cabinet minutes for April 16, 1928 and April 29, 1929. Finally, the Cabinet decided to construct a new small animal building (081), instead of moving the old storage shed.

It is possible that the old storage building or tool shed in question was Building H 332, but definite proof has

not been established.
